

# The Watersports Camp Pick Up and Drop Off Protocol

Our goal is to make the experience of picking up and dropping your camper(s) as safe and efficient as possible. Please review the below information to help guide the process.

## Pre Arrival:

- Temperature check at home and screen for symptoms of illness. Do not come to camp if your camper has a fever or is not feeling well.
- Ensure campers have the necessary supplies for camp in their backpack:
  - Sunscreen
  - Filled reusable water bottle
  - Swimsuit and towel
  - Sweatshirt/Sweatpants
  - Face covering and plastic ziplock bag to store it. Please label the plastic bag with your camper's name.
  - Waiver forms if you have not yet submitted them (first day of camp), or better, complete the waiver online at [watersportscamp.com/waiver](http://watersportscamp.com/waiver).

## Drop Off:

- Please show up in your designated drop off window.
- Line up in the right lane of the driveway in front of MBAC. We will greet you shortly.
- Parents must stay in the vehicle.
- Ensure all occupants of the vehicle are wearing face coverings.
- When staff member in an orange vest greets you either in front of the building, or in the 3-minute loading zone, roll down both your and your campers windows.
- Answer the daily health screening questions.
- Our staff will take the temperature of each camper prior to them exiting the vehicle.
- Once your child has left your car, move out of the drop off area as quickly and safely as possible. Please be careful backing out of the angled parking spots.

## Drop Off Tips

- Please say your goodbyes while waiting in line so your child can exit the car quickly.
- DO NOT park in any red zones.
- DO NOT stop in any areas designated as NO STOPPING.
- DO NOT drive through the boat launching area. You will not be allowed to enter the line from that driveway.
